The Teacher Training Course at Ardee is not just a course where you learn to become good Montessori Directress, but it is where you experience a transformation in your entire personality and attitude towards life.

Mrs. Raisinghani & Mrs. Bisht have hugely inspired me and for me learning has never stopped ever since I did my TTC.

I qualified as a Special Educator (RCI) and started working with children with special needs and started applying the Montessori methodology with those children. It is giving us excellent results and many children are benefiting from this approach because no matter what the age of the child is the basic philosophy of Montessori is simply magical.

Today I have further gone and qualified as a counselling psychologist and I work with people with mental and behavioural disorders. I feel the Montessori approach of believing in human potential helps me in my sessions as a therapist as well. As rightly said once a Montessorian always a Montessorian!!

The 'Teacher Training Programme' at Ardee, prepares you to understand children- their needs, emotions, developmental stages etc. and, how to plan for their holistic development. You become a facilitator, in the true sense. The importance of 'Environment' and its role as a third teacher is instilled in every teacher-student. It is a great learning experience which every mother and an aspiring teacher should undergo.

THE ARDEE TEACHER TRAINING CENTRE

"The teachers task is first to nourish and assist, watch, encourage, guide, induce rather than to interfere prescribe or resist" *Dr. Maria Montessori*

Course Outreach

Students wishing to start a career as a Montessori Teacher: This is an ideal course for students who are interested in Montessori Teaching.

This course is recommended to all experienced teachers of young children who wish to gain insight into the best way to individualize their teaching curriculum, so that the children of varied abilities may work at their own pace.

Teachers should consider this course as an up-gradation, and could implement the Montessori methodology in the conventional schools.

This course helps parents understand the natural laws of growth and self-construction in a child. It is also of great value for future parenthood.

Course Delivery

The course includes theory and practical areas , offering 350 hours of blended learning over a period of 9 months from July to March.

Opportunities will be given to attend the Webinars conducted by the school Leaders, attendance for 4 such webinars is mandatory.

Regular Observation and Training to all students, Written course work, set throughout the course in the form of tutorials.

The exhaustive, curriculum manuals are prepared, with the guidance of the instructor, to become your life time teacher resource guide.

Final exams are held in March for Theory and Practical and the diplomas are awarded on the successful completion of the course.

Internship

Once campus opens, four weeks (100 hours) internship at prestigious schools in Delhi & NCR. And each student is given the opportunity to plan and conduct a class for the underprivileged children.
