

Respected Ms Chanda Raisinghani,

Good morning!

Apropos to the message sent by the school on the mass protest against pollution at India Gate, we would like to apprise you that we along with our several friends participated in the above-said event held last evening.

We would like to place on record our sincerest appreciation for the incessant endeavours of the school in the war against pollution whilst making the people of Delhi aware of the exigent situation prevailing at the moment.

Considerably, the inconceivable and insurmountable levels of pollution in our city is causing grave infraction and erosion to the very substratum of our fundamental right viz. "Right to Life", which includes the "Right to Breathe Clean Air" as guaranteed in Article 21 of the Constitution of India.

Hence, as a sequitur, we as parents are wholeheartedly committed to making our amazing city Delhi a "Pollution-Free City" and earnestly looking forward to being a partner in the future initiatives of the Ardee School in the war against pollution.

Lastly, it is apposite to mention that indeed "together we can be the change".

Warm regards,

Sufian & Fauzia Siddiqui

(Parents of Ibrahim Siddiqui, Year 1-C)
