

DINOSAURS

Dear Parent,
The Montessori Monday of the month took us back in time way back to the Mesozoic Era. We travelled to the time of Dinosaurs and children learnt experientially about the historic phase.

We thoroughly enjoyed understanding the anatomy of these giant reptiles. Children posed to be the paleontologists and went Dino egg hunting followed by Tessellation of the various types of dinosaurs. We also indulged in races wearing the Dino tails and constructed our favourites through recycled cardboards. We ended the day singing dinosaur songs and roaring dance steps.
