ABOUT ARDEE

THE ARDEE Schools started with the philosophy that "Every legend has a beginning, every historic march a first step, every timeless monument a first foundation stone, every reality a dream and every idea a creative inspiration".

We have schools located at Delhi/ Gurugram/Goa and Noida .We are secular, child centric coeducational day-boarding schools. The pre-primary school follows the International Montessori Program, followed by Cambridge curriculum across grades 2 to 10 and culminating in IGCSE examinations and further Cambridge A levels. The school weaves the best practices and methodologies of various curricula to create an indigenous curriculum which allows analytical and critical thinking vs rote learning. Our philosophy 'Be the change' is drawn from Mahatma Gandhi's famous words - ***"Be the change you want to see in the world."***
